TEACHING & LEARNING PRACTITIONER
CERTIFICATION PROGRAM

TEACHING & LEARNING PRACTITIONER CERTIFICATION

TLP Workshop Quizzes

Each workshop has an associated multiple-choice quiz. The TLP Certification Program currently utilizes the web-interface Flexiquiz for each end of course quiz. At the end of each workshop, an attendee will be provided with a link to a web-based quiz that consists of three questions for each half hour of instruction, drawn from the course question bank. An attendee has three tries to pass the quiz with a 66% or better score.

TLP Workshop Certification Exam

The TLP Certification Program concludes with a proctored certification exam after an attendee has taken 16 hours of instruction and passed the associated quizzes. The exam is currently given at the ACCE events, is proctored, and is paper based. The exam will be custom built for each attendee based on the workshops for which they have passed the quizzes. Upon passing the exam, you will be notified and receive your certification. You will then be allowed to use the letters TLP after your name.
