San Antonio, TX 78249

Dear Dr. Romo,

At its July 2014 Annual Meeting, the American Council for Construction Education (ACCE) Board of Trustees reviewed the application for initial accreditation of the Construction Management Program at University of Texas at San Antonio. The Board had available to it the reports of its Visiting Team under the Chairmanship of Professor Scott Seltveit, and its Accreditation Committee under the Chairmanship of Dr. John Schaufelberger. This letter is to inform you that the Board has voted for a five-year accreditation from July 2014 through July 2019.

A renewal of accreditation visit at the end of this five-year period should be scheduled between February 1 and April 1, 2019. The self-evaluation study, in preparation for this visit, will be due in the ACCE national office no later than November 1, 2018.

The final report of the Visiting Team, as acted upon by the Board, is enclosed. This report, as do all ACCE accreditation reports, contains a delineation of perceived program strengths, weaknesses, concerns, and undeveloped potentials. It is the hope of ACCE that the cited weaknesses and concerns will be addressed in coming years, while maintaining program strengths and pursuing program potentials.

ACCE requires that you file a progress report at the end of the first year no later than May 1, 2015, and the second year no later than May 1, 2016. Additionally, all programs are required to file a third year progress report, making your third year progress report due no later than May 1, 2017. A Progress Report form designed specifically for your program will be sent to the program in January of the corresponding year. If for any reason these dates need to be changed, we will notify you well in advance, and should it become necessary for you to ask for an extension, we request that you do the same.

The Board of Trustees looks forward to a First Year Progress Report containing documented progress toward correcting the Weaknesses and Concerns cited in the current Visiting Team Report. The Board's comments are summarized below:

The Board of Trustees supports the accreditation of the Program at the University of Texas at San Antonio for five years with first, second, and third year progress reports. It is expected that the curriculum Weaknesses be corrected in the first year progress report. ACCE Document 103 requires that student work be provided for all construction category courses, even if taught outside of the Program.

The ACCE Board of Trustees extends congratulations on this accreditation, and asks that I express its appreciation for the many courtesies extended to our Visiting Team and for the positive way in which your faculty and staff responded throughout.

We wish you continued success with your Construction Management Program, and feel confident that your graduates, the building community, and the Nation are richer for your efforts.

Warmest regards,
American Council for Construction Education
