American Council for Construction Education
Annual Report
December 2018

PARTNERSHIP FOR CONSTRUCTION EDUCATION EXCELLENCE.

Promoting quality construction education since 1974, ACCE is the accrediting body that raises the standard of excellence for construction education through industry and academic partnerships.
The American Council for Construction Education (ACCE) is a 501(c)(3) private non-profit corporation. The mission of ACCE is to be a leading global advocate of quality construction education; and to promote, support, and accredit quality construction education programs. The primary goal is promotion and continued improvement of postsecondary construction education; specifically, ACCE accredits construction education programs in colleges and universities that request its evaluation and meet its standards and criteria.

ACCE is recognized by the Council for Higher Education Accreditation (CHEA) as the accrediting agency for 4-year baccalaureate degree, two-year associate degree, and master degree programs in construction, construction science, construction management, and construction technology. The Council offers Recognition of Continuing Education courses for Non-Degree Programs.

Organized in 1974 by the American Institute of Constructors, the constructor’s professional organization, and the Associated Schools of Construction, ACCE enjoys the support of the principal building and contracting national associations and academic institutions seeking to satisfy the needs for well educated entrants into the construction profession.

By working together under the aegis of ACCE, persons representative of the total construction community and the public at large, construction educators and constructors, establish and maintain standards and criteria for accreditation, provide guidance to those seeking to achieve accredited status, and carry out the accreditation and reaccreditation processes. In doing so, ACCE serves the interests of potential students by helping them identify institutions and programs that offer quality education in the field, and serves the interests of the industry by enabling employers to identify persons who, by reason of their education and training, have the potential for making lasting contributions to the industry and their profession. ACCE also serves the interests of owners/users of constructed facilities and the public at large by raising the professional caliber of constructors and thus the quality of the construction for which they assume responsibility.

ACCE has developed reciprocal agreements with the National Board for Construction Management Accreditation (NBCMA) of the People’s Republic of China, the Canadian Technology Accreditation Board (CTAB), and The Chartered Institute of Builders (CIOB) in the United Kingdom. The agreements recognize university degree programs accredited by NBCMA, CTAB, and CIOB as equivalent to Baccalaureate Degree Programs or Associate Degree Programs accredited by ACCE and the same equivalency for NBCMA, CTAB, and CIOB accredited Degree Programs.

These agreements are the culmination of a long period of evaluation by all parties embracing academic standards’ comparability, exchange of procedural information and reciprocal observation of accreditation visits.

Board Chair’s Report

On behalf of the Board of Trustees, it is a privilege to present the ACCE Annual Report.

We are proud to celebrate our programs, our industry advisory, our members, supporters, and our volunteers.

Marketing has been our focus, 2 years in developing, and now implementing the plan. We have rebranded ACCE with a new logo, marketing resources, and ACCE value propositions. The Marketing and Communications Committee led by Susan Labas is equipping our ambassadors, liaisons, and peer-to-peer associates with marketing tools and strategies to communicate ACCE’s value propositions. With our marketing resources and team spirit, ACCE will benefit from the increased awareness of what ACCE provides its stakeholders across the country and abroad.

We now have a new Sustaining Association member, the Beavers which is an assembly of engineers and contractors who specialize in heavy construction mostly dams and bridges. Dave Woods is the Executive Director—we welcome Dave and the Beavers into our Council. Thanks to all for a continuing effort to connect with prospects, and communicate the value of joining ACCE.

Networking within ACCE, some of our folks involved with ACCE have successfully launched and maintained student competitions. In addition, the regional competitions within the Associated Schools of Construction (ASC) and the Associated Builders and Contractors (ABC), the Roofing Alliance and the Construction Financial Managers Association (CFMA) have begun their individual student competitions. These efforts provide a great experience for all students who participate, regardless of the competitive outcome. Thanks to these associations who enhance the education of construction management students and graduates.

ACCE board members are providing Initial Visitor Training at events such as the ASC annual conference in Denver, CO. This opportunity provides a good number of faculty in attendance an inside look at accreditation, which will help them and their individual program as they continue to provide quality construction education with ACCE’s guidance and support.

The Industry Advisory Board Event is of value to ACCE, IAB members, and members of professional associations and the academic community. The annual IAB Event was held in February 2018 in Tucson. Charlie McIntyre, Susan Labas, and Charlie Roesset were all part of a larger group who provided presentations to over 130 folks. This IAB Event provides tremendous support for the industry advisory board members. IAB Events are planned to coincide with ACCE February meetings. The IAB in Houston, Texas in February 2019 is its 10th year celebration of success, and the February 2020 IAB will be in Jacksonville, Florida.

The Guidance Committee continues to support ACCE’s accredited and candidate programs through its Mentor Program. We want to thank all the mentors for their work and effort to provide the value-added elements of ACCE.

ACCE has its Dupree Scholarship Fund, and ACCE is asking program leaders to encourage graduate students to apply as there are awards waiting.

ACCE continues to hold a strong presence with 73 4-year programs, 5 master’s programs and 13 2-year programs which are accredited. In addition, ACCE has 7 4-year candidates and 5 2-year candidates. We expect to continue to accredit new programs and attract new candidates in its continued growth.

The Annual 2018 meeting was held in Calgary, Alberta. It was a tremendous success—of course, it is my home country.

All who attended enjoyed beautiful weather and the hospitality of the Canadians.

At the July 2018 Annual meeting, Mike Holland, ACCE President and CEO, announced to the Board of Trustees that he will be retiring within the next year. This announcement was in-line with Mike’s commitment to the ACCE Board in 2004 that he would stay 15 years, if allowed. Members of the Board expressed their gratitude for his years of leadership and service to ACCE. The Board then assigned a Task Force chaired by John Schaufelberger to implement an executive search for a President/CEO. The Task Force charged with making recommendations to the Executive Committee to make recommendations to the Board for approval.

Once a new President/CEO is selected, it is anticipated the transition will begin sometime in the spring of 2019, with a complete transition prior to July 2019.

On behalf of the Board of Trustees, we want to thank Mike Holland for his dedication and leadership. We also want to acknowledge the ACCE officers, members of Committees, and Chairs who work tirelessly to support ACCE. Accreditation Dr. Khalid Siddiqi, Leadership Dr. Al Hauck, Standards Dr. Abdol Chini, Council of Chairs Dr. Craig Capano, Marketing and Communication Ms. Susan Labas, Special Committees: Dupree Education Fund Ms. Lauren Collins, Training Professor Scott Sumner, Guidance Dr. James Jones, Recognition Mr. Murray Jones, Industry Liaison Dr. Charlie McIntyre, and Baccalaureate Dr. Robert Ries, Associate Degree Dr Mike Safavi, and Industry Mr. Charlie Roessett.

We are thankful for all the volunteers who make this organization work and prosper. Without the hundreds of volunteer hours annually, ACCE could not accomplish its mission of promoting quality construction education.

Thanks to all who support ACCE.

Respectfully submitted,

Dr. Cheryl Goodale
There are seventy-three baccalaureate degree programs, five masters degree programs, and thirteen associate degree programs that are ACCE accredited in accordance with the standards and procedures. Shown are the parent institution, the program accredited, and the responsible faculty member as prepared by the programs. Standards and procedures by which these programs are evaluated for accreditation are found on the ACCE web site at www.acce-hq.org

ACCREDITATION CANDIDATES

There are nine baccalaureate degree and six associate degree candidate programs. The institutions where these programs are offered have all indicated their desire to work toward ACCE accreditation. However, these programs, although in various stages of the accreditation process, have not yet been evaluated for compliance with ACCE’s standards and criteria. Shown are the parent institution, the construction program, and the responsible faculty.

**Non Degree Recognition**

In response to the concept of quality education in construction, ACCE has created a recognition program for non-degree, career related education programs from providers and programs. This effort to recognize the providers and programs which have a quality process and content is aimed at providing education other than skills training. Standards and procedures by which these providers and programs are evaluated for recognition are found on the ACCE web site at www.acce-hq.org under “About ACCE.”
