ACCE Annual Conference

The Council for Higher Education Accreditation (CHEA) requires that member programmatic accrediting agencies are to notify the public of accreditation decisions and the basis for such decisions. Within 30 business days after each board meeting in which accreditation decisions are completed, the American Council for Construction Education meets this requirement by publishing a notice of their accreditation actions on its website ACCE-HQ.org and distribution of the information in ACCE's periodic email newsletter.

At its meeting on July 23, 2021, ACCE took the following actions regarding Programs in Construction Management related degrees at the Associate Degree and Bachelor's Degree within the institutions listed below.
