

Construction Management and Engineering Assistant Professor Position

The Department of Construction Management and Engineering at North Dakota State University (NDSU) invites applications for one tenure-track position in construction engineering and management at the rank of Assistant Professor (outstanding candidates may be considered at the rank of Associate Professor). Candidates for this position are expected to be able to teach three courses per year among the general construction engineering or construction management curriculum, to maintain an active research agenda, and provide necessary advising and committee service. Individuals with expertise in construction materials, virtual design and construction (VDC), or big data are especially encouraged to apply. The anticipated start date is on August 16, 2019.

Minimum Qualifications: A Ph.D. degree in construction management, construction engineering, architectural engineering, or civil engineering; demonstrated teaching and research skills; and effective oral and written communication skills.

Preferred Qualifications: 3-years of relevant continuous construction industry experience; relevant professional registration and/or certifications (PE or CPC); college level teaching and research experience; knowledge about ACCE and/or ABET accreditation; ability to interact and collaborate effectively with a diversity of colleagues and students.

To apply to this position, please visit <http://jobs.ndsu.edu/postings/9846>. Application packages must include a cover letter, a detailed current curriculum vita, statement of research interests and teaching philosophy, and names and contact information for three references. Screening will begin on February 1, 2019 and continue until the position is filled. For questions, please contact: Dr. Gary Smith, Gary.Smith@ndsu.edu, (701)231-7564.

North Dakota State University is an Equal Opportunity employer and all qualified applicants will receive consideration for employment without regard to age, color, gender expression/identity, genetic information, marital status, national origin, participation in lawful off-campus activity, physical or mental disability, pregnancy, public assistance status, race, religion, sex, sexual orientation, spousal relationship to current employee, or veteran status, as applicable. Women & traditionally underrepresented groups are encouraged to apply. The search is being conducted in compliance with North Dakota Open Records laws.

About the Department: The construction degree program at NDSU was approved in 1969 by the North Dakota Board of Higher Education with the support of the Associated General Contractors (AGC) of North Dakota. Within the Department, the Program of Bachelor of Science in Construction Engineering is accredited by ABET, and is the third oldest accredited construction engineering program in the United States. The Bachelor of Science in Construction Management program is accredited by the American Council for Construction Education (ACCE). The department has around 260 undergraduate students and 40 graduate students. More information about the Department can be found at www.ndsu.edu/construction.
